PROFESSIONAL SUMMARY

AI Application Engineer and Full Stack Developer with 1+ year of production experience in the **MERN stack (React, Node.js, Express.js) with MySQL** and **AI applications in Python** using **FastAPI, LangChain, LangGraph, and RAG**. Core developer of MyCRMSim-AI at QuantumStack, a production **multi-agent AI support & CRM platform** with Salesforce, HubSpot, and Zoho integrations. Now at HyperNym & Metis, building **Python (Django) microservices** with Kafka, PostgreSQL, and Azure Cosmos DB, and **Angular** frontends.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

AI / LLM: LangChain, LangGraph, RAG, LLM agents, embeddings & pgvector search, tool-calling, prompt engineering, OpenAI, DeepSeek

MERN Stack: React, Node.js, Express.js, MongoDB, Next.js, Redux, React Query, Tailwind CSS, REST APIs, GraphQL, JWT/SSO

Python Backend: FastAPI, Django, Flask, Pydantic, async/await, SSE streaming, background workers, webhooks

Databases: MySQL, PostgreSQL, MongoDB, Redis, pgvector, Azure Cosmos DB

Angular & Microservices: Angular, RxJS, NgRx, Angular Material, microservices, Apache Kafka, event-driven architecture

CRM & Automation: Salesforce, HubSpot, Zoho, Zapier, Make (Integromat), workflow automation, lead capture, SMS/WhatsApp

Tools & Workflow: Docker, Git, GitHub, Bitbucket, SourceTree, CI/CD basics, Vercel, Agile

WORK EXPERIENCE

Full Stack Developer — **HyperNym & Metis International Limited (Full-time) · Islamabad** **Oct 2026 – Present**

- Build backend **microservices in Python** with **Django, FastAPI, and Flask**, using **Apache Kafka** for event-driven communication and **PostgreSQL** and **Azure Cosmos DB** for storage.
- Build responsive **Angular** frontends (TypeScript, **RxJS, NgRx, Angular Material**) with reusable components and typed services connected to the backend APIs.

AI Application Engineer & Full Stack Developer (MERN + Python) — **QuantumStack · Taxila** **Aug 2025 – Oct 2026**

- Built responsive **React/Next.js** frontends and **Node.js/Express REST APIs** backed by **MySQL** for a multi-tenant SaaS platform, with **JWT authentication** and real-time data sync.
- Developed **Python/FastAPI** AI services with **LangChain, LangGraph, and Redis**, including **SSE streaming chat**, background workers, and LLM usage tracking.
- **Owned all third-party CRM integrations end-to-end** (**Zapier, Make, Salesforce, HubSpot, and Zoho**) using webhooks and event-driven workflows to auto-sync leads, contacts, and appointments.

PROJECTS

MyCRMSim-AI — **Multi-Agent AI Support & CRM Platform (QuantumStack)** **app.mycrmsim.com**

- Core developer on this **~30k-line production platform**; built **two coordinated LLM agents** on **LangGraph**, including **"Simi," an in-app support agent** with intent classification, entity extraction, and **tool-calling**.
- Implemented **RAG with LangChain** (embeddings + **pgvector**) and **multi-provider LLM routing (OpenAI + DeepSeek)** so agents answer from each client's own knowledge base with cost and latency control.

Stack: *Python · FastAPI · LangChain · LangGraph · pgvector · OpenAI · DeepSeek · React · Node.js · Express · MySQL · Redis · Docker*

HyperNet IoT Platform — **Fleet, Asset & Smart-Building SaaS (HyperNym)**

- Contributing to HyperNym's **SaaS IoT platform** for device management, provisioning, and **data-lake analytics**, powering **fleet management, asset tracking, and smart-building** use cases.

Stack: *Python · Django · FastAPI · Flask · Apache Kafka · PostgreSQL · Azure Cosmos DB · Angular · RxJS*

EDUCATION

BS (Hons) in Computer Science — **Virtual University of Pakistan** **2022 – 2026**

Relevant coursework: Data Structures, OOP, Web Development, Databases, Artificial Intelligence.

CERTIFICATIONS & COURSES

ProCodrr (Anurag Singh) — Frontend, JavaScript, React, Node.js & Express. **Thapa Technical** — Node.js, Express.js & React.js v19.
